DETAILED ACTION

1. Applicant's request for reconsideration of the finality of the rejection of the Office action mailed March 9, 2007 is persuasive and, therefore, the finality of that action is withdrawn.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

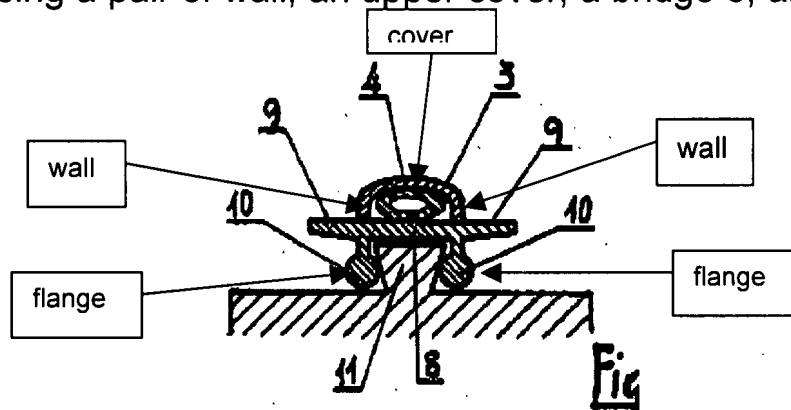

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 2, and 34 are rejected under 35 U.S.C. 102(b) as being anticipated by Lucas, US 4363180. Lucas teaches a cable ferrule identification comprising a pair of spaced wall 39 and 40, a cover 37 connecting the wall at a top end thereof and a bridge 38 connected to and extending between the wall in spaced relation to the cover.

4. With respect to claim 2, the wall 39 and 40 are parallel to one another.

5. Claims 1, 2, 3 and 34 are rejected under 35 U.S.C. 102(b) as being anticipated by Piana, US 4268986. Piana an identification device comprising a pair of wall, an upper cover, a bridge 8, and flanges 10.

6. Claims 1, 2, and 34 are rejected under 35 U.S.C. 102(b) as being anticipated by Weston, US 3906957. Weston teaches forceps comprising a pair of spaced walls 1 and 2, a cover 3 connecting the wall at a top end thereof and a bridge 9 connected to and extending between the wall in spaced relation to the cover.

Claim Rejections - 35 USC § 103

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claims 6, 7, and 8 rejected under 35 U.S.C. 103(a) as being unpatentable over Lucas. Lucas does not teach indicia on each wall.

However it would have been obvious to one having ordinary skill in the art at the time this invention was made to construct the cable identification device taught by Lucas with indicia on each side wall to provide additional information concerning the cable.

9. Since the applicant does not disclose that the size and type of font solves any stated problem or is for any particular reason it appears that any suitable size and type of font would perform equally well.

Allowable Subject Matter

10. Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

11. Claims 14, 15, 20, 21, 22, 24, 25, 26, 29, 30, 31-33 and 35 are allowed.

Election/Restrictions

12. Claims 5, 9-13, 16-19, 23, 27, and 28 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a

nonelected species, there being no allowable generic or linking claim.

Election was made **without** traverse in the reply filed on July 27, 2005.

Response to Arguments

13. Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.
